***Election/Restrictions***

Applicant's election of Group 54, exemplified in figure 72 in the reply filed on November 5, 2004 and the election of all claims 188-335 as being readable on elected group 54, figure 72 in the reply filed on April 14, 2006 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

***Specification***

The attempt to incorporate subject matter into this application by reference to patent applications as stated in paragraph [0013] is improper because essential material may no longer be incorporated by reference to an unpublished pending applications 37 CFR 1.57(c).

***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 188-334 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed,

had possession of the claimed invention. Regarding independent claim 188, the claimed twelve pivots (line 3) and twenty-four furniture support assemblies (line 9) is not found in the elected embodiment of figure 72 nor is it discussed in the specification. There is no indication as to whether the component support mechanism of elected figure 72 is associated with any of the other plurality of embodiments of component support mechanism discussed or is it a component support mechanism of another type in the specification. The specification merely provides a general discussion of the main components of the furniture support components and its components of elected figure 72. At best, figure 72 and the specification provides the elected embodiment has having two furniture supports (256 and 260, figure 72) with four columns supporting each which totals eight columns. It is not clear where the twelve-four furniture support and twelve pivots are found in elected embodiment exemplified in figure 72. Regarding claims 311 and 325, last paragraph, it is not clear how upon simultaneous extension or contraction of the first and second telescoping columns, one of the furniture component and entirety of the first or second slider surfaces can move laterally parallel relative to the other as recited and applied to the elected embodiment of figure 72. Consequently, no meaningful rejection can be given to the elected claims associated with the elected figure 72.

### ***Response to Arguments***

Applicant's arguments filed 4/14/2006 have been fully considered but they are not persuasive. Applicant argues that all claims read on the elected embodiment exemplified in figure 72 where there are at least three furniture support assemblies

(remarks page 3, line 2). However, applicant in figure 72 clearly shows only two furniture support (256 and 260) and in paragraph [0136] of the specification clearly describes only first and second furniture components. Clearly there's discrepancy in what's shown, described and elected and what is being argued by applicant.

***Conclusion***

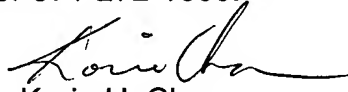

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
